

Attachment for TCM Forklift

Attachment for TCM Forklifts - Forklift trucks are a major player in the material handling field of each and every global trade. Transporting industrial goods occurs every day on our industrious world. First innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained recognition following World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

Initially started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM started constructing lift truck manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures numerous models of industrial forklifts with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
