

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically activate to both dump and release when the bumper release contacts the side of a dumpster. After unloading is done, the hopper can return to original locked and upright position. This particular piece of machinery is even existing with a cable which allows operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the tine truck. This particular product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish to maintain durability.
