

Forklift Spreader Bars

Spreader Bars for Forklift - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader producer around the world. They have been a dedicated maker of spreaders for numerous applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in house by utilizing the latest CAD systems and FEM tools. The ELME company now employs more than one hundred twenty five personnel. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The ELME product collection offers spreaders designed for different container and trailer handling operations. Some of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than one thousand one hundred fifty spreaders by way of making use of top quality elements so as to guarantee reliability and excellent standards while offering competitive prices. Major features of ELME consist of design simplicity, market reaction and innovative modular spreader concept.
